SESAMO 2 CONVERTER VIDEO FORMATS, MASTERING COMPATIBLE SOFTWARE FILTERS Mastering Compatible Software Filters: Our new Batch Video Processor filters include our new MTS/MXF video conversion, the stabilization filters and the MSWF feature for maintaining your video quality on your timeline while working on the audio as normal. The new MTS/MXF video converter is a native converter that can convert your project to MTS, MXF, MOV and other formats, as well as create various image sequences and edit the visualizations. The stabilization filters includes the Optical Stabilization Filter (OSF), the Aperture Correction Filter (ACF), the Topaz Filter (TPL) and the Time Scrubber (TS). They can be used to keep your videos clean and sharp. The MSWF is a master video filter that allows you to retain the quality of your video files and maintain the audio waveform even if the video is full of unwanted audio or video artifacts.
